AI Sales and Service for Zain

ZAIN AI
Assessment

Zain is a large enterprise with a significant number of customers, diverse products and services offering.

Off-the-shelf, standard AI tools are not capable of delivering the required ROI or customer experience that will set Zain apart from the competition.

Zain requires dedicated AI agents and AI infrastructure:

- AI understands Zain's products, services, customers
- AI that can converse in multiple languages
- AI that can autonomously handle core customer interactions
- Local data, KSA-based and dedicated AI Setup
- Dedicated AI Server can ensure speed and quality of experience

LOCAL AND DEDICATED FOR ZAIN

ZAIN AI

Sales and Customer Service

- **Voice calls and chat interaction**
- **AI Agent for Sales and Product Advisory**
- **AI Agent for Customer Service**
- **AI understands products, services, and customers**
- **Task execution** (e.g., lead capture, upgrades, etc.)
- **Multilingual**, 24/7
- **Channels:** Web Widget, WhatsApp, Phone
- CRM, BSS and other system integrations

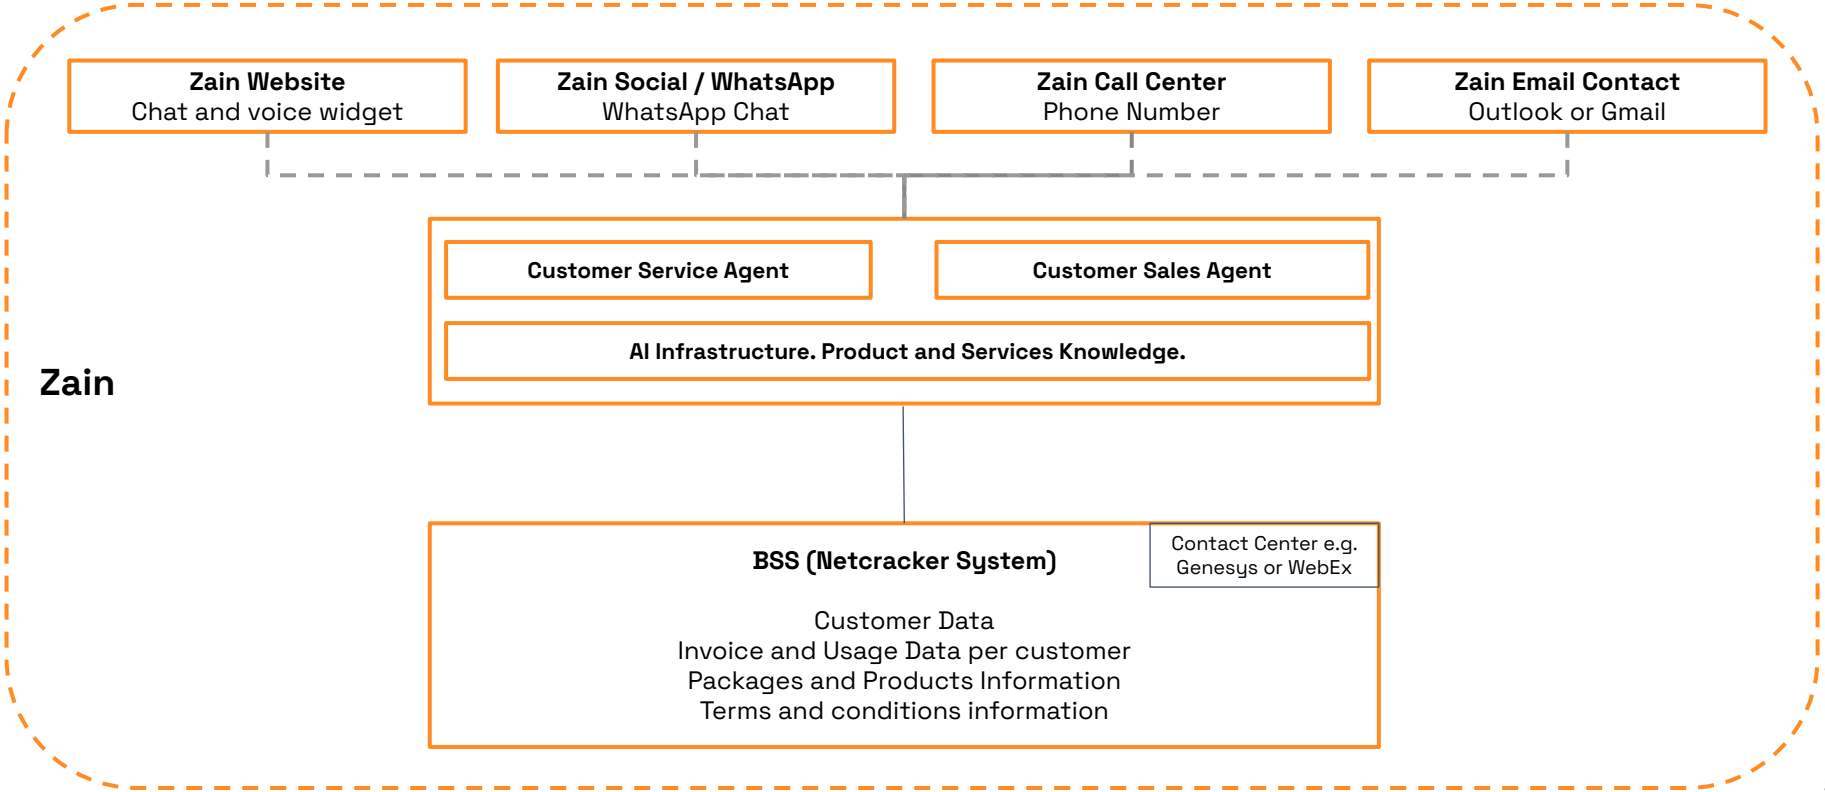
ZAIN AI - Example Setup



Recommended Approach

Step 1

- Assessment of Zain Customer Service and Sales Process
- Specification and plan for Zain AI Setup

Step 2

- Dedicated AI Agent Training for Customer Service and Sales
- Data integration with BSS and Contact Center

Step 3

- Launch for selected services or customers
- Full activation

ZAIN AI - PoC Suggestion

Duration:
1 month configuration, 1 evaluation and training, 1 month operation

Suggested Interactions (TBD together)

- Customers asking about invoice details (e.g., ‘Why was I charged X SAR?’)
- Customer requests related to terms e.g. explaining the contract details

AI Agents
Dedicated and trained AI Sales and Service Agents for Zain

Interaction languages
Multilingual: Arabic, English, Urdu, etc

Interaction Mode
Chat and Voice on Zain Website / Shop (selected languages)

Integration
BSS to capture customer data, and retrieve customer and product data
